

INSURANCE WAIVER

We, the Travel 100 Group, recommend that our clients purchase trip insurance, especially for important family trips and trips to foreign countries. Insurance can help protect your trip investment as well as you, the traveler. Depending on the policy purchased, insurance may provide coverage for trip cancellation, trip interruption, supplier failure, lost or stolen luggage and/or personal items, medical emergencies including required evacuation, trip delays, missed connections and rental vehicle damage. Travel insurance may also provide 24/7 help line assistance.

The person executing this waiver has been offered the opportunity to purchase trip insurance of their choice and has chosen not to accept coverage at this time.
